FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §134.225, effective July 7, 2016, sets the reimbursement guidelines for the disputed service.
- The services in dispute were reduced/denied by the respondent with the following reason codes:

Explanation of benefits

- 16-Claim/service lacks information or has submission/billing error(s) which is needed for adjudication.
- P12-Workers' compensation jurisdictional fee schedule adjustment.
- P300-The amount paid reflects a fee schedule reduction.

- 18-Exactduplicate claim/service.

Issues

1. What is the applicable fee guideline?
2. Is the respondent's denial of payment supported?

Findings

1. The applicable fee guideline for functional capacity evaluations (FCEs) is 28 Texas Administrative Code §134.225.
2. According to the submitted explanation of benefits the respondent denied reimbursement for the FCEs based upon "16-Claim/service lacks information or has submission/billing error(s) which is needed for adjudication."
 28 Texas Administrative Code §134.225 states "The following applies to functional capacity evaluations (FCEs). A maximum of three FCEs for each compensable injury shall be billed and reimbursed. FCEs ordered by the division shall not count toward the three FCEs allowed for each compensable injury. FCEs shall be billed using CPT code 97750 with modifier "FC." FCEs shall be reimbursed in accordance with §134.203(c)(1) of this title. Reimbursement shall be for up to a maximum of four hours for the initial test or for a division ordered test; a maximum of two hours for an interim test; and a maximum of three hours for the discharge test, unless it is the initial test. Documentation is required. FCEs shall include the following elements:
 (1) A physical examination and neurological evaluation, which include the following:
 (A) appearance (observational and palpation);
 (B) flexibility of the extremity joint or spinal region (usually observational);
 (C) posture and deformities;
 (D) vascular integrity;
 (E) neurological tests to detect sensory deficit;
 (F) myotomal strength to detect gross motor deficit; and
 (G) reflexes to detect neurological reflex symmetry.
 (2) A physical capacity evaluation of the injured area, which includes the following:
 (A) range of motion (quantitative measurements using appropriate devices) of the injured joint or region; and
 (B) strength/endurance (quantitative measures using accurate devices) with comparison to contralateral side or normative database. This testing may include isometric, isokinetic, or isoinertial devices in one or more planes.
 (3) Functional abilities tests, which include the following:
 (A) activities of daily living (standardized tests of generic functional tasks such as pushing, pulling, kneeling, squatting, carrying, and climbing);
 (B) hand function tests that measure fine and gross motor coordination, grip strength, pinch strength, and manipulation tests using measuring devices;
 (C) submaximal cardiovascular endurance tests which measure aerobic capacity using stationary bicycle or treadmill; and
 (D) static positional tolerance (observational determination of tolerance for sitting or standing)."

CPT code 97750 is defined as "Physical performance test or measurement (eg, musculoskeletal, functional capacity), with written report, each 15 minutes." CPT code 97750 requires direct one-on-one patient contact.

A review of the submitted Functional Capacity Evaluation reports finds the requestor did not document all the elements required for FCEs, specifically, "submaximal cardiovascular endurance tests which measure aerobic capacity using stationary bicycle or treadmill". The division finds the respondent's denial is supported and reimbursement is not recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that reimbursement is not due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
